**Subject:** Shame on City Council  
**Date:** Tuesday, June 4, 2019 9:07:39 PM

---

Today there was a "meeting" scheduled regarding the policy of noncooperation with Federal Immigration authorities regarding non citizen violent criminals.

Actually it was simply a statement of our City Council's decision. Each attendee was given one minute to speak. Though slated to speak after 50 minutes I chose to leave as my one minute would have made no difference.

I was appalled and embarrassed by our city leaders. Rather than tackle the task of securing the safety of both citizen and non-citizens they unanimously looked the other way, passed the buck and pandered to their misguided base.

I wonder what they would have said to Bambi Larson regarding her safety the day before she was murdered. Probably they would have shrugged their shoulders and taken a bow as they certainly did today.

What a lesson in local government. Beyond disgusting...
